Benjamin Ibrulj

Lead Database Architect | Senior Database Engineer @ Data Intelligence Solutions

Sarajevo, Federation of Bosnia and Herzegovina, Bosnia and Herzegovina

Summary

Highly skilled SQL Database Administrator and Database Engineer with 7+ years of experience designing, optimizing, and maintaining enterprise database systems in the banking and financial sector. Specialized in:

- SQL Server administration & development
- Performance tuning & query optimization
- Backup, recovery, HA/DR, replication
- Cloud & on-prem migrations (Azure, hybrid)
- Data auditing, GDPR compliance & data masking
- Automation using PowerShell, T-SQL, and custom monitoring tools
- Implementing AI/LLM solutions to optimize DBA workflows

I have led mission-critical DBA projects, mentored teams, and supported core banking systems with high reliability and security requirements. I'm passionate about building modern, scalable, and automated data platforms that support business growth. I'm currently exploring new opportunities where I can contribute my technical expertise, automation mindset, and passion for innovation. Open to: Senior DBA, Database Engineer, SQL Developer, Data Engineer (SQL), Cloud Database Engineer, DBRE, and DataOps roles.
